

## Tangrams

Goal: Develop problem-solving skills and understand spatial relationships

### Materials -

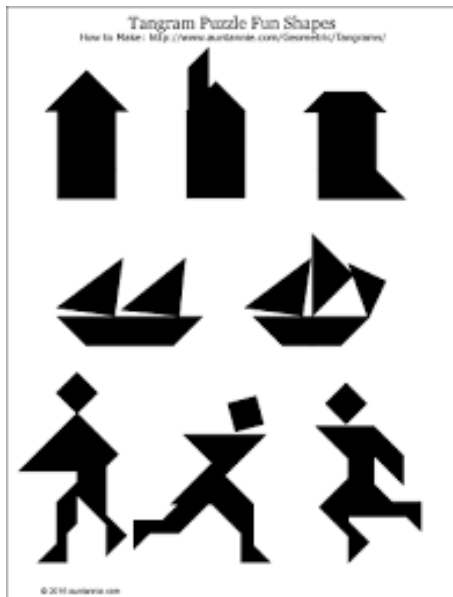

- 7 Puzzle Pieces (cut-out paper shapes)
- Puzzle Outlines (laminated paper?)

### Procedure -

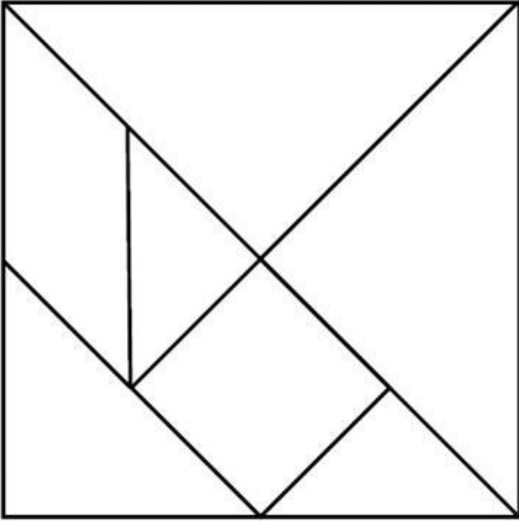

1. Look at a puzzle outline.
2. Use all 7 cut-out paper shapes to make the shape in the outline. Rearrange the paper shapes until all the pieces are used up and match the outline.
3. Repeat with a new puzzle outline.

☆ Explanation: Tangram puzzles can be tricky so solving them usually requires lots of trial and error. After completing a couple puzzles, it will start to get easier.
